

Postgraduate Diploma in Early Childhood Care and Education (ECCE)

The ECCE Program provides a broad general orientation to the field of Early Childhood Care and Education. Rooted in strong teaching focus, the Program offers opportunity to pursue independent study and explore personal interests in a variety of educational platforms in early childhood care and education. Entrepreneurship education is central to this and it prepares students to set up, organize, establish and manage institutions of Early Childhood Care and Education.

At the end of the Program students will become professionals who will:

- Develop competencies to teach in a variety of pre-primary educational institutions
- Become entrepreneurs in pre-primary education who can establish institutions for Early Childhood Care and Education such as - day care centers / pre-primary schools
- Develop competence as Managers who can take up leadership positions at different levels in institutions of Early Childhood Care and Education

BE WHAT YOU WANT TO BE

Student life at Navrachana University is vibrant and thriving with a variety of events round the year. In addition to academics, field trips and educational tours, NUV students are active around and beyond campus. Whether students are playing through the NUV Sports Club or cheering for friends, they are always busy participating and directing cultural events, organizing and attending Guest Lectures, participating and managing Workshops, administering and directing Quizzes, or participating, managing and organizing Extra-curricular activities – they are always busy.

'Educating the mind without educating the heart is no education at all'
- Aristotle

To pursue personal interest, there are several student-run clubs like the Automates@NUV, Business@NUV, Engineering@NUV, Management@NUV, ScienceIT@NUV, Music@NUV, Dance@NUV, Theatre@NUV, Computers@NUV and Design@NUV that allow education to flourish with other interests.

School of Liberal Studies and Education

NAVRACHANA UNIVERSITY

Navrachana University is a UGC approved University meeting norms and requirements of UGC and AICTE. Navrachana University comprises four schools offering a variety of under-graduate, post-graduate and doctoral programs. Some of the salient features are:

Student-centric education with a focus on inter-disciplinary learning, research, practical learning and hands-on education

Strict adherence to academic schedule and on-time examinations

Develops students with breadth of understanding through inter-disciplinary education and a depth of knowledge through focused disciplinary education

State-of-the-art infrastructure facilities: Wi-Fi enabled campus; well-equipped library; modern laboratories for computer, engineering, and sciences; workshop facility for engineering, architecture and design students; well-equipped studios for design and architecture students; a computer-aided language laboratory; moot court for law students; amphitheatre and cafeteria.

School of Liberal Studies and Education

Programs offered under Liberal Studies are Bachelor of Arts (Journalism & Mass Communication), Bachelor of Science (BSc+), Master of Science (Chemistry) and Master of Social Work (MSW). Under Teacher Education programs offered are: Bachelor of Education (BE.), Master of Education (ME.), Post graduate Diploma in Early Childhood Care and Education (ECCE) and Ph D (Education).

Well-known for its programs in teacher education which are NCTE approved, the School has a well-earned reputation in the field of teacher education due to its high quality curriculum, practice teaching and faculty research. The university, which has its roots in top quality schools, is well connected with the local education community and ensures that the knowledge and skills essential for a modern day teacher are adequately developed through its courses and successfully applied to the needs of schools and society. BEd has an excellent record (100%) in placement over the last twelve years.

BEd Program

The two-year BEd Program is NCTE-approved and prepares students for multiple contexts and roles in contemporary schools to succeed as a school teacher. The program provides a broad-based, practical education in school teaching through disciplinary courses and electives, and offers an opportunity to acquire specialized knowledge in two school subjects so that they can

become Master Teachers. Interdisciplinary education is fundamental to BEd education and it is balanced with disciplinary and general education so that core issues of Education can be better developed, presented and contextualized. Entrepreneurship education and knowledge of visual design add to the innovative aspects of the NUV curriculum and helps students to succeed in teaching practice. Rigorous teacher-student interaction provides continuous dialogue and mentoring. Hands-on-education through simulation exercises prepares students for real-life experiences in actual classrooms. A strong practice connect is established through a close and continuous interaction with the local school community.

At the end of the Program the student-teachers will develop:

- Broad-based teaching competency
- Competence in teaching of any two school subjects
- Perform the multifaceted role of a teacher efficiently
- Proficiency to engage in entrepreneurship projects
- Understanding of theory and expertise in practice
- Expertise to work well in interdisciplinary situations
- Adequate understanding of the contemporary and contextual concerns of education in general and secondary education in particular
- Become competent professionals with capacity to meet the challenges offered by contemporary schools

<input type="checkbox"/> Duration - 2 Years	<input type="checkbox"/> Education introduces extensive use of technology
<input type="checkbox"/> Four Semesters 96 credits	<input type="checkbox"/> Social connect through Project KHOJ

<input type="checkbox"/> Practice teaching	
<input type="checkbox"/> User connect through local school connections	

MEd Program

The two-year MEd Program is NCTE-approved and prepares students to become Independent Researcher, Teacher Educators, Educational Managers and Educational Technologists. Through a choice-based credit system, students select courses in disciplinary, interdisciplinary and areas of specialization to customize their educational needs and develop professional expertise in their area of interest. Interdisciplinary education, with courses in philosophy, sociology, psychology in education and research methodology, and specialization courses combine practical, research and theoretical approaches to develop understanding of the teaching profession.

Entrepreneurship education is an innovative aspect of the curriculum.

At the end of the Program students will develop:

- As competent Educational Manager/Independent Researcher/Teacher in higher education/Education Technologist
- Deep knowledge and expertise in the chosen area of specialization
- Deep understanding of the field of education
- As an entrepreneur in education
